- _____
- _____
- _____
- _____

Next, please put the things you circled in order of importance, either by putting a number next to the ones you circled. A number 1 is the most important to you, a number 2 next and so on...

What do you have now? How many and what kind?

Binocular(s)

Telescope(s)

My experience level is...

None

I've dabbled

Expert!

I could teach this class

What does the class title 'Wonders of the Night Sky' mean to you?

What does the class description mean to you?

'Did you know you can see the International Space Station pass overhead from almost anywhere in the world? Learn to identify stars, planets, and constellations. Includes stargazing parties on evenings announced during the class.'
